Caper Consulting & Safety Services Ltd. (CCSS) was born on the premise that, "All Injuries Are Preventable and Through Professional OH&S Education, injuries WILL Be Prevented".

Our goal is to provide affordable customized professional safety programs/ services that meet or exceed industry/ regulator standards.

Our programs/ services can focus on one specific area, modify an existing program or design a new OH&S Program from the ground up while ensuring all aspects of Federal, Provincial, Municipal and Regulatory compliance are met or exceeded.

Your current program is assessed, then drawing on its strengths, we design, develop and deliver a OH&S program which will position your company as leaders in Workplace Safety.

CCSS offers a variety of professional safety services and customized programs such as:

- Program/ Policy Assessment, Development, Delivery and Evaluation
- OH&S Program Management
- Legal OH&S responsibilities of Management and Employees
- OH&S Documentation/ Record Keeping / Regulations (Training/ Equipment Maintenance)
- Risk Assessment and Mitigation
- Leading Indicator Development and Implementation (FLHA's, HID's)
- Worksite Inspection, Compliance and Regulations
- Incident Investigation utilizing "TapRoot ® Root Cause Analysis System"
- Corrective Actions, CA Implementation and Follow up
- Government & Regulatory Compliance Pre-audit Assessment/ Coaching
- Assistance with COR certification- program development & implementation

Benefits Of a Effective OH&S Program:

- Incidents/ Injuries are Prevented and Everyone Goes Home Safe
- Increased Confidence by Investors, Customers and Prime Contractors
- Increased Employee Motivation and Retention
- Increased Productivity
- Increased Efficiency
- Increased Public Image and Perception
- Ability to Bid on Government/ Large International Contracts
- Lower Costs through Insurance Premium Reductions
- Increased Due Diligence

Jim Jessome, President
